

Dumpsters/Storage PODs placed on City Streets

1. All dumpsters/PODs should be placed in private driveways whenever possible.
2. The placed dumpster/POD shall not obstruct any existing public sidewalk.
3. No dumpster/POD permits will be issued during the winter snowplowing/seasonal weight restriction season (approximately mid-November to the end of April).
4. If a dumpster/POD has been approved to be placed on the City street the following must be met:
 - A dumpster/POD permit is required. The fee for the permit is \$20.00.
 - No dumpster/POD shall be wider than eight (8) feet.
 - No dumpster/POD shall be located within the travel or thru lane of a street.
 - No dumpster/POD can be placed within thirty (30) feet of an intersection.
 - Flashers or reflective tape are required *prior* to placement.
 - Wood planking or plywood is required to be placed under the wheels or 'feet' of the dumpster/POD.
 - A dumpster cannot remain on the street or alley longer than seven (7) days (unless otherwise approved).
 - A storage POD is allowed to be on the street for 14 days and only (2) times per year.
 - Any damage to the street, curb or sidewalk as a result of the dumpster/POD is the responsibility of the contractor or homeowner to repair immediately.

Prior to placing a dumpster/POD in the street you must have in your possession the permit card which is to be secured to the dumpster/POD so it can be viewed from the street.

No dumpster/POD may be placed in the street without the required permit card.
